

Join thousands of students who've benefited from Sologic RCA training, saving their organizations time and money by solving tough problems.

As their skills quickly improve, it has been calculated that your RCA practitioners help save an average of \$25,000 per RCA. This is just one reason why over 99 percent of past students say they would recommend this Facilitator course to their colleagues.

Learn current and proven best practices in cause and effect analysis from Sologic instructors, based on our team's extensive experience applying the Sologic method directly—to everything from major investigations, to recurring and systemic problems, to positive and proactive analyses. Also benefit from the compilation of our clients' best practices and requests, encompassing a vast array of industries, disciplines, geographies and cultures.

By applying Sologic's state-of-the-art RCA method to real-world problems in the Facilitator class—and benefiting from instructor mentoring—you will gain the knowledge, tools, and confidence to lead successful root cause analyses. You will be able to solve tough and recurring problems, and proactively replicate successes.

Empower RCA Teams

- Unify around a common methodology, language and terminology
- Perform and facilitate an RCA
- Gather evidence, interview stakeholders and lead an investigation team
- Identify, understand and correct systemic causes
- Pinpoint effective solutions to problems of any magnitude
- Minimize the impact of human behavior and errors
- Utilize Sologic Causelink[®] software to visually depict cause and effect relationships, prepare a final RCA report, and analyze and share data
- Effectively communicate RCA findings, solutions and trends

The Sologic RCA Method

- Universal, scalable, practical and intuitive for RCA novices and experts alike
- Logical, complete and accurate process and terminology that's aligned with how the world actually works
- Takes the focus away from non-specific causes, opinion, blame and punishment; shifts the focus to systemic causes, objectivity, collaboration and data
- Enables RCA facilitators and teams to more effectively and efficiently identify true causes and effective solutions
- Informs business decisions and supports achievement of business goals
- Based on extensive feedback from our clients as we work with them to build RCA programs that effectively solve and prevent real-world problems
- Client feedback loop consistently feeds continuous improvement of method and training
